CHECK-LIST

OF THE

Plants of Gray's Manual.

Addenda:

- Antennaria campestris* Rydberg.
Apocynum hypericifolium Ait.
Astragalus bisulcatus Gray.
 " *crassicaarpus* Nutt.
Chamaerhodos erecta Bunge.
Chenopodium Fremontii Watson.
Conringer orientalis Dumort.
Crepis runcinata T. & G.
Erigeron pumilus Nutt.
 " *subtrinervis* Rydberg.
Gerardia Besseyana Britton.
Iva axillaris Pursh.
Erysimum lepticolanum Sheldon.
Lilium umbellatum Pursh.
Monodelphis Nuttalliana Greene.
Panicum miliaceum L.
Madia glomerata Hook.
Phlox Hoodii Richards.
Physostegia parviflora Nutt.
Polygonum emersum Britton.
 " *litorale* Link.
Potentilla gracilis Dougl.
Ranunculus Macounii Britton.
Rhus radicans L.
Rumex persicarioides L.
Salsole Pali L., var. *Fragus* DC.

132.

Senecio Plattensis Nutt.

Lysimachia altissima L.

Lophia Hartwegiana Greene

incisa Greene.

Hesperis comata Trin. & Ruyss.

Thalictrum venulosum Freese.

Only the front cover and Lunell's addenda were digitized. To see original item, please contact Botany Libraries Head of Archives and Public Services. A later edition of the Checklist is available online through Google Books. The link is provided in HOLLIS (#004548364).

J. LUNELL, M. D.,

~~LEEDS, N. D.~~

229 Jefferson Street,
Portland, Ore.

January 17th 1890.

M. L. Fernald, Esq.,
Cambridge, Mass.

My dear Sir:

I enclose with this letter my own check list. I am unable to find the other one as my trunks are untouched yet. I expect to be able to add considerably to it next summer.

I am now in Paradise, enjoying the most pleasant summer weather to day. From collections of plants already made this month I find Coulter's Rocky Mountain Flora is not sufficient for this country. I am unable to find out what botanical literature could replace part of Synoptical flora not edited yet. I would be very thankful for information in that line, as it is high.

by unpleasant to have the plants increased
for lack of manuals.

I suppose you have received letter
sent a few days ago.

Very truly yours

J. Lemell.

Plants collected by J. Lemell, Leeds, N.D.

1. *Stellaria media*, Gay. Portland, Or., March 4. 1900. Hillsides.
2. *Juncus balticus*, Benth. " " " " "
3. *Berberis Aquifolium* Pursh., Vancouver, Wash., March 12. 1900. Woods.
